# PROFILE

**S**TAFFORD CONTROLS LIMITED (formerly known as Butterfly Valves Division - **VIRGO ENGINEERS LIMITED**) - manufacturer of Industrial Butterfly valves and related flow control products / accessories.

The long history, extensive experience, trust from our parent company VIRGO enable us to continue with a variety of proven products by combining a wide range of applications / value addition, We cater many of our products to users across the country today with a motto to strive to offer products that exceed customer requirements. We continue to deliver.

## **BRIEF HISTORY**

Part of parent company VIRGO Since its inception 1986

2003: Separate entity namely “Deltech Controls Limited” formed.

2005: Renamed after “**Stafford Controls Limited**”

2008: Moved to Chennai with an organisational change

2009: Mfg facility expansion at Chennai completed

2010: ISO Recertification with ISO 9001 : 2008

We continue with our efforts in developing Stafford's portfolio of products and supplying new and emerging segments of markets.

## **ABOUT STAFFORD**

Set up by Virgo and was part of their group until it was separated and moved to Chennai during 2008, Stafford has become a recognised manufacturer of Industrial Butterfly valves and related Products .

Stafford has expert knowledge and experience in design and manufacture of Quarter turn Butterfly valves being extensively applied to the various spectrum of industries, After having moved to Chennai, the plant was expanded in 2009 and is still growing. The plant is equipped with in-house facility covering the complete processes from machining to test facilities handling valves sizes ranging from 2” to 40”. Stafford is conveniently located in the renown Industrial Hub “Chennai - Ambattur Industrial Estate” which is very closely connected with Sea Port and Airport - Chennai .

### **Top Quality Products - Ranges**

Our valves are characterised by their superior quality and distinctive precision that guarantees stable and reliable control. In our well equipped manufacturing facility, we carry out complete product tests and we are continually developing new products and solutions. The own resources in-house - from development to production - the process from idea to solution for application is indeed our strength by which we could ensure quality products ever supported with better services.

## **Our Range of Products:-**

Butterfly valves, Butterfly dampers, Automated Valves, check valves, Special valves & related flow control accessories.

## **Our Operations in a Glance**

- ◆ Design & Development of the valves
- ◆ Manufacturing of Industrial valves, Flow controls accessories/
- ◆ Automation solution
- ◆ Assembly of finished valves
- ◆ Testing before shipment
- ◆ Proper packing after labeling of the Products
- ◆ Consignments that are either sent to the customer - thro'
- ◆ OEM or directly to end user.

## **Quality System & Management**

We always strive to offer the best possible service, and bring the highest quality products. We do this through a total commitment to continuous improvement of our processes and investments in staff, training, facilities, equipments, and software and business practices.

## **Stafford Certified With ISO 9001:2008**

Our agenda is met through the selection of high quality suppliers in the domestic market and controls carried out by our Quality Control Team; we have been equipped with required inspection and test equipments to allow us to guarantee the highest quality control levels both in the manufacturing processes and in the final product.

## **Our Business**

Design, manufacture, marketing & servicing of Butterfly valves, value added automation system & flow control accessories.

## **Our Vision**

Our vision is to continually grow through innovative product development and thereby to provide the highest possible quality products at the most effective way to our valued customers.

## **Services - Engineering & Design Development**

We produce valves for various industrial applications designed in accordance with the main international specifications like API 609 /ISO 5752, BS 1868, EN 558 ETC..

Our product range is constantly expanding: we implemented highest quality standards in our operations. Our range of valves are available in various material of constructions such as Cast Iron, Cast Steel, Stainless steel and other special alloys in order to meet all sorts of customer requirements and specifications.

Our products have been tested at the presence of major end users and third party inspection authorities.

## **Services - Sales & Service Support**

We strongly believe the concept - "find the better engineering solutions for our customer, resulting in the creation of long standing relationships built on mutual trust and understanding". Ever since

inception, product and service quality has been regarded as a key for our success.

Our young and motivated sales team, operating from various parts of country thro direct or by its representation, is able to suggest the best combination of product design, material options and pricing with timely and accurate quotations.

We offer after sales service with a team of engineers available to support our customers during the installation and maintenance of our Products.

## **Reference List**

STAFFORD products find extensive applications in the following industries.

- ◆ Cement
- ◆ Chemical / Agro chemical
- ◆ Construction
- ◆ Food & Pharmaceutical
- ◆ Fire Fighting
- ◆ Heating & Air Conditioning
- ◆ Mining, Iron & Steel
- ◆ Machine Building
- ◆ OEM
- ◆ Paints
- ◆ Petrochemical
- ◆ Petroleum & Oil
- ◆ Power Generation

- ◆ Pollution Control
- ◆ Paper & Pulp
- ◆ Sugar
- ◆ Soaps & Detergents
- ◆ Textile
- ◆ Water Supply Treatment  
& Effluent Treatment

## Copy of Letter From M/s. Virgo - Reg Stafford Change of Management

### Virgo Engineers Limited

Regd. Office: 273, Hingwad Phase II, Main Market, Pune - 411 057 (IND) Phone: +91-20-66744000 Fax: +91-20-66744021

17<sup>th</sup> August, 2008

Dear Sir,

As you are perhaps aware, Virgo Engineers Limited has been at the forefront of design and manufacture of Valves for over 2 decades. It has in this short span of time become a name to reckon with in the world of Ball Valves, Butterfly Valves and Valve Automation Systems.

The Butterfly Valves were manufactured and marketed through a separate Company viz Stafford Controls Limited which is a 100% subsidiary of Virgo Engineers Limited. In the recent past we had merged Butterfly Valves business into the parent Company, Virgo Engineers Limited.

However, as part of a strategic decision we have now decided to transfer our existing Butterfly Valve operations under Stafford Controls Ltd, alongwith the Company and its brand name 'Stafford' to Mr. Sudhakar & Mr. Mohan, partners of Tulip Valves & Controls, Chennai. The entire Butterfly Valve Plant at Pune will be shifted to Chennai and very soon Stafford Controls Ltd, under the new management will start supplying the Butterfly Valves under the 'Stafford' brand name. The entire design and technology of the Butterfly Valves will continue to remain the same and new management of Stafford Controls Ltd, will ensure that they supply the same quality products that were supplied to you earlier.

M/s Tulip Valves & Controls is one of our leading Distributors of Ball Valves and Butterfly Valves in South India. They are also an established Valve Automation Centre for Virgo Quarter Turn Ball and Butterfly Valves. We believe that Stafford Controls Ltd, under the new management will be in a better position to offer you competitively priced Butterfly Valves under the brand name of 'Stafford'. Coupled with their strength in stocking and selling of various Valves, you as a customer and user of Butterfly Valves would stand greatly benefited.

We do hope you will extend your support and patronage to new management of Stafford Controls Ltd for your requirement of Butterfly Valves.

Thanking you,

Yours faithfully,  
For Virgo Engineers Limited

Director – Technology and New Projects

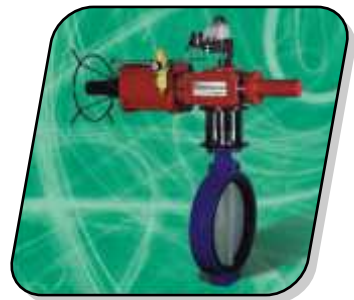

A close-up photograph of a blue, corrugated metal surface, likely a pipe or duct. The image shows the repeating ridges and grooves of the metal, with a bright light reflecting off the ridges, creating a shimmering effect. A yellow rectangular box is overlaid on the right side of the image, containing the text "PRODUCT RANGE" in black, uppercase letters.

PRODUCT  
R A N G E

## Range Of Products

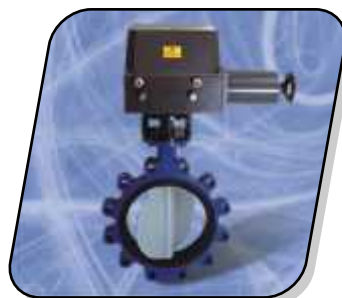

### Wafer Type Butterfly Valves

Size Range                      2" ( 50 NB ) TO 40" ( 1000 NB )  
Pressure Ratings              PN 3.5 / PN 10 / PN 16 & #150  
Mode of Operation            Lever/ Gear/ Pneumatic/ Electrical  
Material of Constructions:  
Cast Iron / Alloy Steel & Special Materials

### Lugged Wafer Type Butterfly Valves

Size Range                      2" ( 50 NB ) TO 20" ( 500 NB )  
Pressure Ratings              PN 3.5 / PN 10 / PN 16 & #150  
Mode of Operation            Lever/ Gear/ Pneumatic/ Electrical  
Material of Constructions:  
Cast Iron / Alloy Steel & Special Materials

## Double Flanged Type Butterfly Valves

Size Range 22" ( 550 NB ) TO 40" ( 1000 NB )

Pressure Ratings PN 3.5 & PN 10

Mode of Operation Gear/ Pneumatic/ Electrical

Material of Constructions:

Cast Iron / Alloy Steel & Special Materials

## Standards Of Compliance

Design Standard : API 609 / BS EN 593

Testing Standard : API 598 / BS EN 12266-1, BS EN 12266-2

Mounting Standard : ISO 5211 / VARIOUS

SUMMARY STAFFORD BUTTERFLY VALVE PRODUCT RANGE					
Sr. No.	Series	Type	Valve Size	Pressure Rating	Construction
1	50	Wafer	2" To 40"	PN3.5 To PN10	Wafer,1 Piece Stem
			2" To 12"	PN16/#150	Wafer,1 Piece Stem
2	52	Lug	2" To 20"	PN3.5 To PN10	Lug,1 Piece Stem
			2" To 12"	PN16/#150	Lug,1 Piece Stem
3	51	Wafer	22" To 40"	PN3.5 To PN10	Wafer, 2 Piece Stem
4	53	Double Flange	22" To 40"	PN3.5 To PN10	Double Flange, 2 Piece Stem

## Product Details At Glance

- ◆ Construction and Design generally conform to BS/EN 593 and API 609 standards
- ◆ Body materials in Cast Iron, Ductile Iron, Carbon Steel, Stainless Steels, Al. Bronze and other exotic alloys
- ◆ Disc material options in Ductile Iron with Nylon-PA12 coating, Ductile Iron with Aroxy coating, Stainless Steels, Al. Bronze and other exotic alloys
- ◆ Pressure ratings from DIN PN3.5, PN10, PN16 and ANSI 125, 150 class
- ◆ Low-pressure designs, for low differential pressure or vacuum applications.
- ◆ Seat material options in EPDM, Nitrile, Viton, Silicone, Hypalon
- ◆ Stem material options in Stainless Steels 431 or 316, Carbon Steel plated

## SALIENT FEATURES

- ◆ Resilient seated Butterfly vales, bi-directional positive shut off to 300 PSI working pressure. Offered with a wide variety of elastomeric seals.
- ◆ Can direct mount actuators, gear operators Eliminates hysteresis at the stem and actuator connection and reduces costs for automation.
- ◆ One-piece stem supports the disc across the entire length. Disc + Stem engagement by a precision machined double "D". No leak path as with other designs. Positive engagement for disc rotation. No shearing of taper pins as with other designs.
- ◆ "Primary Sealing" achieved by precision radius machined on

the disc hub, pressing into the seat , “Secondary Sealing” by two molded “O” rings in the seat journal, compressing against the valve stem. “Tertiary Sealing” achieved by the bi directional double “U” cup seal at the stem top. Positive sealing against fugitive emissions and vacuum applications

- ◆ Rigid-backed elastomer seat easily field-replacable, heavy-duty square grooved design ensures rigid locking of seat in body, prevents seat movement Replaceable seat, bringing down maintenance costs.
- ◆ Unique stem retention design facilitates the “easiest” assembly and disassembly of valve on site for maintenance purposes. No damage to disc, seat or stem, as in other stem retention designs, “Blow-out proof” design to ensure no accidental stem push-out takes place under pressure
- ◆ Available with a variety of pneumatic, electric and hydraulic actuation **AUTOMATED VALVE PNEUMATICALLY OPERATED / MOTORIZED etc..**

**FORM - B**  
**The Central Sales Tax (Registration and Turnover) Rules 1957**  
 [See Rule B(1)]  
**CERTIFICATE OF REGISTRATION**  
 CST No. 962677/Dated 17.09.2008

This is certify that **Mr. STAFFORD CONTROLS LTD.**, whose principal place of business within the state of Tamil Nadu situated at **No.8/919, Nidoo Industrial Estate, Ambattur, Chennai-98** has been registered as a dealer under section 7(1)(7)(2) of the Central Sales Tax Act, 1956.

The business is -  
 Wholly - **Manufacturing of Valves**  
 Mainly -  
 Partly -

The class(es) of goods specified for the purpose(s) of sub-section (1) and (2) of section 3 of the said Act is/are as follows and the sales of these goods in the course of inter-State trade to the dealer shall be taxable at the rate specified in that sub-section subject to the provisions of sub-section (4) of the said section:-

(a) For resale	(b) For use in manufacture or processing of goods for sale	(c) For use in mining
List enclosed	List enclosed	Nil

(d) For use in the generation or distribution of Electricity or any other form of power	(e) For use in packing of goods sold/resale
List enclosed	List enclosed

The dealer manufactures, processes or Extracts in mining, the following classes of goods or generates or distributes the form of power, namely: Nil

The dealer's year for the purposes of accounts runs from 1st day of April on the 31st day of March.

The dealer has no additional place of business/has additional place(s) of business as stated below:

(a) In the State of registration  
 (b) In other States

The dealer keeps warehouses at the following places within the State of registration

1. Nil
- 2.
- 3.
